3. From the Engine Download page, Click PSSchedEngineInstall.ZIP.

Engine Download		
Build: 2017-2018 Build-Load (25520247) Catalog: 2017-2018 Course Catalog (25004997)		
File	Last Updated	
PSSchedEngineInstall.zip	January 26, 2016	

The following instructions will vary depending on the browser you are using:

IF YOU ARE USING FIREFOX

4. Select Save File, if it isn't already selected.

Click OK.

Opening PSSchedEngineInstall.zip	
You have chosen to open: PSSchedEngineInstall.zip which is: Compressed (zipped) Folder (40.7 MB) from: https://powerschooltrngold.sandi.net	
What should Firefox do with this file? Open with Windows Explorer (default) Save File Do this automatically for files like this from now on.	
OK Cancel	

The download progress will appear in the upper right corner of your browser. A blue arrow \oint will indicate when the download is complete.

5. Click the **arrow** to open the Download menu, then select **PSSchedEngineInstall.zip** to open the file.

IF YOU ARE USING CHROME

4. You will *not* be prompted to save the zip file, it will automatically save to the Downloads folder on your computer.

The download progress will appear in the lower left corner of your browser.

5. When the download is complete, click **PSSchedEngineInstall.ZIP** to open the file.

In either Browser, the file will open in the Downloads Folder on your computer.

6. Double-click Scheduling-Engine-Install-win.exe to open the InstallShield Wizard.

NOTE: If You get a **User Account Control pop-up window**, prompting you to allow the

program to make changes to your computer.

Click Yes.

NOTE: If you get a *message advising you that an older version of the Scheduling Engine is currently installed*.

Click **OK** to upgrade to the current version.

NOTE: Or you may be taken directly to the InstallShield Wizard.

Click Next.

Once you are on the **Choose Install Location** page, leave the Destination Folder in the recommended default location.

7. Click Install.
