

About the Upgrade

PeopleSoft PeopleTools 8.58 offers enhancements to deliver an updated and contemporary look. Updated style sheets have new colors, headers, icons, and effects. They apply to fluid pages, secondary pages, mobile pages, and others. The impact to users is minimal. **Processes and procedures will remain the same.**

The most noticeable difference is a new PeopleSoft sign-in page and NavBar icon. See below for new look:

What's New in 8.58?	
Sign-In Page	<p>New PeopleSoft Sign-In page. Sign in using your EmplID and password as usual.</p> 
NavBar icon	<p>New NavBar icon looks like a compass.</p>
