How to Change from ActivVote to ActivExpressions

If your **ExpressPoll** does not show the all of the question options, you need to change your settings to allow the various types of **ActivEngage** question options for your students.

1. Check to see if your **ExpressPoll** has all of the question options.

    a. Click on the **ExpressPoll** icon.

    b. Hover over the **ExpressPoll** tool on the flipchart to see if you have all of the options.
        i. If the question choices look like this, you have all of the options and are ready to use **ActivEngage**.

        ii. If the options look like this, you need to change your settings. Go to **Step 2**.
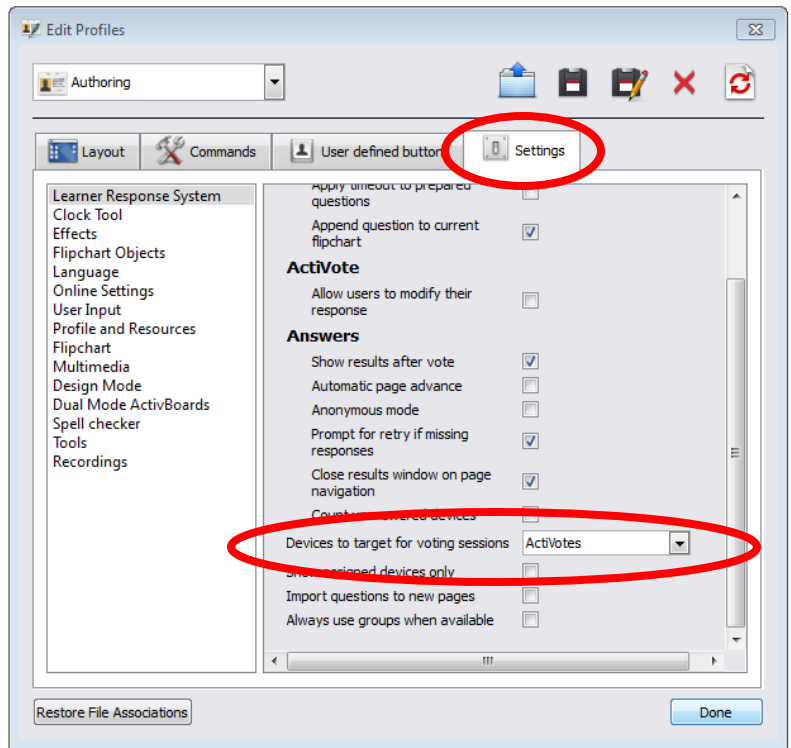

2. Click on the **'File'** menu and click on **'Settings'**.
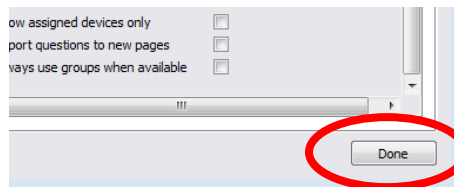

3. Click on the **'Settings'** tab.

4. Scroll down to **'Devices to target for voting sessions'** and click on the pull down menu.

5. Pull down to **'ActivExpressions'**.

6. Click **'Done'**.

7. You will now see all of the options for questions in your **ExpressPoll** and you are ready to use **ActivEngage**.
