

How to get QB up and running

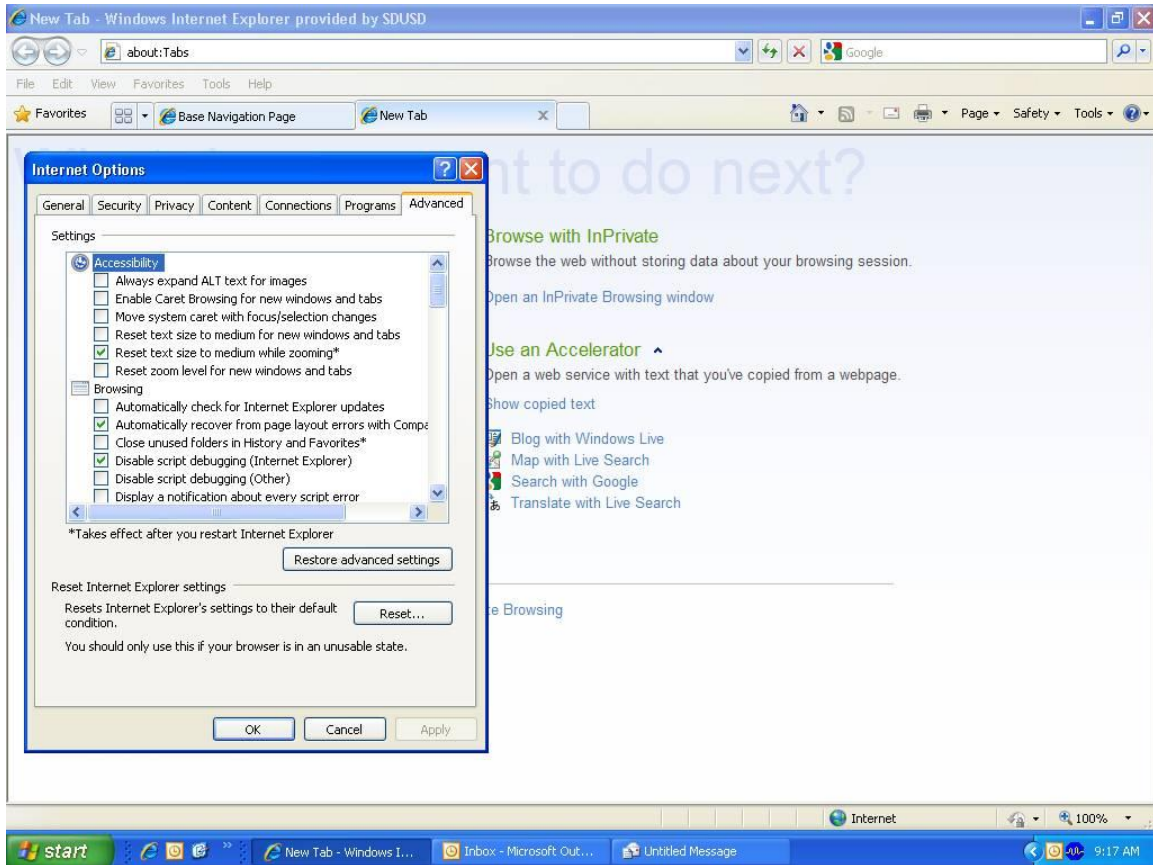

1. Make sure that you are using IE8 (internet explorer 8)

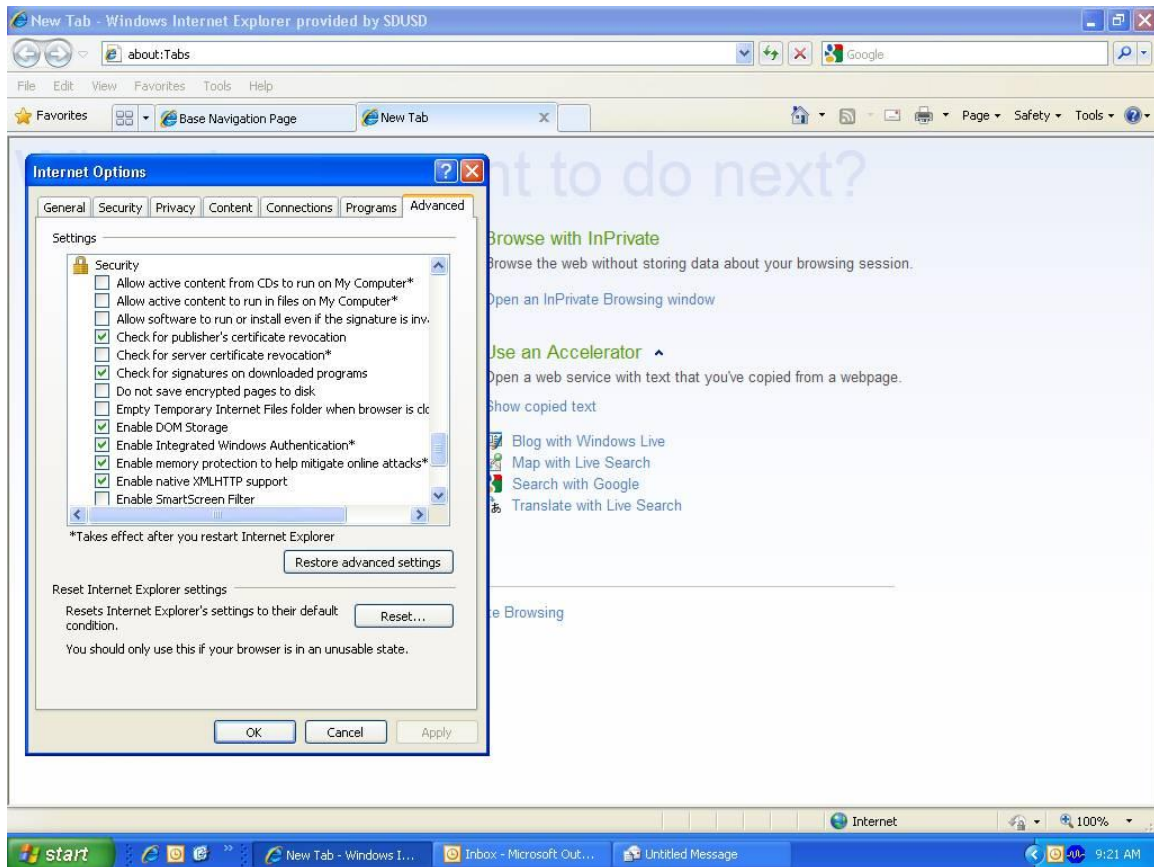

2. If your computer says IE8, then go to the Tools menu - click it - select internet options.

3. Select the Advanced tab - click it.

4. Scroll down to the Security section - find "Enable native XMLHTTP support" - put a checkmark in the box to the left of the message.

5. Click OK

6. Restart IE8 and log into QuickBooks Online again

Remember to call me with any questions. Thanks a bunch!!!
